Health screening benefit from
New York Life Group Benefit Solutions

Regular checkups and screenings are an essential part of staying on top of your health. You're probably already getting an annual physical and other routine exams throughout the year – so why not get paid for doing so?

What is it?

The health screening benefit, which is sometimes called a wellness benefit, pays you a flat amount for having common health screenings. There are several potential screenings – such as your annual physical, mammograms, dental exams, immunizations, and more. The money can be used any way you like, but it can help offset out-of-pocket costs for medical care and other expenses.*

Why do I need it?

Better health and quality of life: Regular preventative screenings can often lead to early diagnosis and better management of chronic diseases and conditions.

Reduces stress: Knowing that you are taking proactive steps to protect your health can provide peace of mind and decrease stress levels.

Saves money: By finding and diagnosing issues early, expensive treatments can be avoided in the future.

How do I use it?
